**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Without competition large companies can continue to overcharge for sub par technology. Our infrastructure and technology is way behind other countries in the world and that is due to the fact that they have a stranglehold on their customer base. There is no incentive to improve product there is only an incentive to make as much money as possible. Fiber optics and fast broadband is no longer a luxury it is a necessity. Keep competition alive so that we have a hope for a brighter future where we can choose companies we believe in rather than be forced into the worst of the worst.
